

## Performance:

|                                |                                                  |
|--------------------------------|--------------------------------------------------|
| Reference Standards            | IEC 61071; IEC 60871                             |
| Installation                   | Indoor use, maximum above sea level 1000M        |
| Capacitance tolerance          | -5%/+10% (Optional for $\pm 5\%$ or $\pm 10\%$ ) |
| Operating temperature of case  | -25°C to +60°C                                   |
| Dielectric                     | Polypropylene film                               |
| Dissipation factor             | < 0.1%                                           |
| Test voltage between terminals | Unx1.25 V, 10s                                   |
| Cooling method                 | Naturally air-cooled                             |
